

AGUSTÍN PATURLANNE

Full-Stack Developer & Product-Minded Engineer

La Plata, Argentina (open to remote) • aguspaturlanne@gmail.com • +54 221 609 3065 • [linkedin.com/in/agustinpaturlanne](https://www.linkedin.com/in/agustinpaturlanne)

SUMMARY

Full-stack developer (Licenciatura en Sistemas, UNLP, GPA 8.82/10) with experience across the stack — from backend systems and API integrations to running growth and product for a live AI SaaS as co-founder. Cybersecurity background (incident response, offensive pentesting) adds a security-first mindset. Comfortable owning ambiguous problems end-to-end. Actively seeking a full-time remote/hybrid role, with full availability, where technical work is tied directly to business outcomes.

SKILLS

Languages & Frameworks: Python, FastAPI, Django, Flask, JavaScript/TypeScript, React, Next.js, SQL

Infra & Tools: PostgreSQL, Supabase, Docker, Vercel, RunPod (GPU infra), REST APIs, Git

Security: Incident response, offensive pentesting, secure application design

Product & Growth: SEO, Meta Ads, analytics (PostHog), cost modeling, affiliate programs

Languages: Spanish (native), English (advanced — IELTS 8.0/9.0)

EXPERIENCE

Co-Founder, PromptRender

Jan 2026 – Present | Remote, part-time

- Co-founded an AI SaaS turning 3D-modeling screenshots into photorealistic architectural renders, driving +158% revenue and +118% MRR growth month-over-month (May to Jun 2026).
- Designed RunPod GPU infrastructure strategy and built cost/break-even models that shaped pricing.

Backend Developer (Independent Project), PicknShipApp

Nov 2025 – Jan 2026 | Remote

- Built the backend MVP (Python/FastAPI) solo for a last-mile delivery platform, deployed on Render.
- Integrated the Tiendanube API end-to-end as a native shipping method, incl. webhooks, auth, and Slack alerts.

Offensive Security Pentester, Krav Maga Hacking (KMH)

Jul 2024 – May 2025 (concurrent) | La Plata, Argentina

- Ran offensive penetration testing engagements, identifying and reporting exploitable vulnerabilities for clients. Part-time, held alongside the CERTUNLP role below.

Security Analyst / Developer, CERTUNLP — UNLP CSIRT

Jul 2024 – May 2025 (concurrent) | La Plata, Argentina

- Handled security incidents and built internal tools with Django, Flask, and React.

Software Developer Intern, Soluciones Informáticas Integrales

Aug 2021 – May 2022 | Remote

- Developed and debugged features in a remote team using MS SQL Server, SQL, and Git workflows.

EDUCATION

Bachelor's Degree in Information Systems, Universidad Nacional de La Plata (UNLP)

Feb 2020 – May 2025

GPA 8.82/10 — Thesis "UX Design Platform with Vibrotactile Interactions", graded 10/10

University Programmer Analyst, Universidad Nacional de La Plata (UNLP)

Feb 2020 – Mar 2023

GPA 8.46/10 — Top graduate of the 2023 cohort

IT & Communications Technology Analyst, Universidad Nacional de La Plata (UNLP)

Feb 2020 – Apr 2025

GPA 8.65/10
